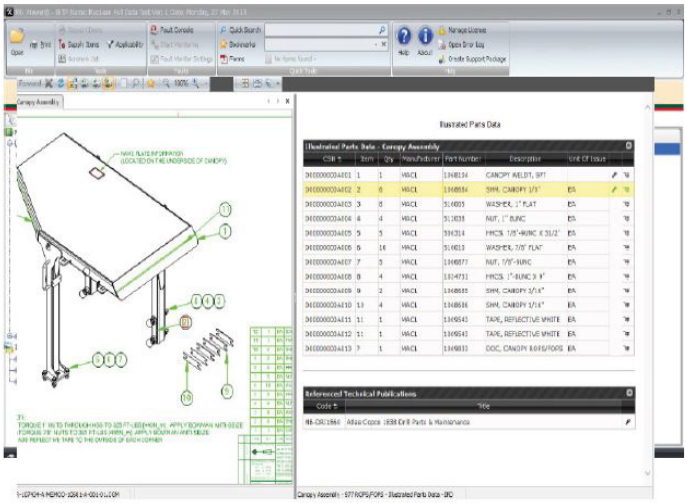
R4i Viewer®

smart.secure.free

Organizations worldwide utilise ADG's royalty-free online and offline IETP Viewer, gaining advanced publication generation capabilities.

Defense, aerospace and heavy engineering organizations need to provide maintainers and systems operators with authorised, accurate and integrated information to ensure the safe and efficient operation of complex systems.

The R4i Common Source DataBase Server outputs content for this smart, installable IETP Viewer for the Microsoft Windows platform. The R4i Viewer® is licensed as free to distribute for R4i CSDB Server® Customers. R4i Viewer® supports the dynamic presentation of SGML, XML and PDF formats, as well as audio, video and other written and graphical content.



Advanced publication capabilities

The R4i Viewer® enables companies to leverage the R4i CSDB Server's® advanced publication generation capabilities and options, including:

- The ability to generate an IETP change package, based on change attributes within S1000D Data Modules or based on R4i CSDB Server® monitoring change
- Advanced control of the IETP's interaction and presentation to the maintainer, including switchable interface to "touch friendly" tablet setting.
- Auto-generated acronyms, support equipment and parts and consumables lists, using content derived from Data Modules
- ITAR content control and technical information security via data encryption and IETP expiry
- Preselect preferred language for Viewer or toggle to switch language interface mid-session
- Display information based on applicability, including combinations such as tail number, vessel name or model variant
- Display filtering based on Time Compliant Technical Orders
- Support for observed and detected fault codes, reducing system downtime
- Advanced Illustrated Parts Catalogue display including integration into stores ordering systems and multi-directional linking between parts lists and image hotspots.
- Configurable Landing Pages inside R4i Viewer®, including an image with hotspot zones to give users a short cut to specific Data Modules, Images or Folders.

R4i ReViewer

Shorten the IETP Review Cycle with the feature extensions of R4i ReViewer, including Sticky Note Comment Modules and complete IETP link and Image validation and reporting.

Benefits of using the R4i Viewer®

The R4i Viewer® is a powerful Windows-based IETP application that provides maintainers and operators with an interactive and unified view of manuals, eLearning courseware and maintenance job tasking.

The R4i Viewer is **royalty free to distribute** with content published from the R4i CSDB Server®. It offers:

- Advanced search, including parts searching
- A free CGM viewer capability with Cortona 2D Viewer
- Bookmark, cookie-trail and other easy navigation capabilities
- Full support for multi-directional hotspotting & legend data with CGM graphics
- Support for dynamic presentation of SGML and XML data
- The ability for maintainers in the field to provide feedback via the "Tech Note" facility , or via Comment Module with R4i ReViewer
- Applicability management controlled in IETP
- Online or offline IETP access out in the field
- The ability to apply soft or hard date expiry to prevent access to outdated content
- Integration of "just in time" training within the IETM
- Support for legacy content including PDF, PPT, Word and Excel formats
- Allow Data Modules to be found via custom DMC filtering.

R4i Viewer® has been approved for use on the U.S. Air Force Grid, U.S. Coast Guard Network and the Australian Defence Restricted Network.
